There could be minor changes in the detailed timetable especially during the end/beginning of the block to make up for scheduled holidays.

The lectures of the AETCOM and Pandemic module will be taken together for the entire batch like the lecture classes of other subjects and will be held in the allocated lecture hall of the batch i.e. the same lecture hall where all lectures are conducted.

237 students will be divided into 5 groups (A to E) for the SGT & autopsy postings. Each group further divided into 2 subgroups.

237 students will be divided into 2 groups for the SGT & DOAP sessions of AETCOM & Pandemic module: Group 1 (125 students), Group 2 (112 students). Each group is further divided into 5 subgroups of about 25 students each.

*FAP will be on the second Friday of the month between 9 am to 1 pm (except in block 2, where it will be between 9 am to 12 pm) for all the students of third professional-part 1

Will be used for 'lecture/self-directed learning' where applicable. Further, these would be done for the entire batch of students or for 1/2 batch depending on the structure of the module.

How to read the detailed timetable?

The timetable makes use of colours to indicate the department and systems. It also uses colour coding of the boxes to indicate integration.

The colours used for various systems are as below:

Colour codes for system
1. General
2. Cardiovascular system
3. Digestive system and Excretory system (includes Hepatobiliary)
4. Endocrine system
5. Sensory system (includes skin, eyes, & ears)
6. Immune system, lymphatic system & Haematology
7. Musculo-skeletal system
8. Nervous system
9. Renal system and Urinary system
10. Reproductive system
11. Respiratory system

P.S. General is used in case the topic does not fit into any system or involves multiple systems.

The colours used for fonts of various departments are as below:

Colour Codes for different departments	
Community Medicine	Paediatrics
Forensic Medicine	Orthopaedics
Ophthalmology	Anaesthesiology
Otorhinolaryngology	Dermatology
Medicine	Psychiatry
Surgery	Radiodiagnosis/Radiation Oncology
OBG	Respiratory Medicine

The box of the cells containing classes/sessions having integration have been highlighted as below:
