

PROGRAM OUTCOMES (PO)

The Program Outcomes of M.Tech. in Computer Science and Engineering (Artificial Intelligence and Decision Science) enable students to:

- PO1: Independently carry out research /investigation and development work to solve real-life problems
- PO2: Write and present a substantial technical report/document.
- PO3: Demonstrate a degree of mastery over the area as per the specialization of the program. The mastery should be at a level higher than the requirements in the appropriate bachelor program.
- PO4: Design intelligent systems by applying engineering principles and practices to provide solutions to complex engineering problems
- PO5: Provide automation/software solution for societal problems
- PO6 Ability to use the tools and techniques for developing decisive and intelligent solutions.
